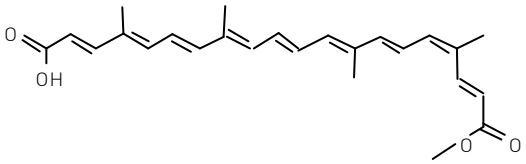
ANNATTO E160B

Plant-Ex Ingredients Ltd

Origin: Derived from the seeds of the Achiote tree Bixa Orellana.



Profile: Orange red shades.

Formats: Annatto is available in oil or water-soluble formats, as well as a spray dried powder.

Stability: Annatto has good stability towards heat and light which can be increased with antioxidants.

Applications:

Bakery
Confectionery
Beverages
Snacks
Seasonings

Amendments made under EU Regulation 2020/771 mean Annatto must now be classified as:
Annatto: Bixin (E160b (i))
Annatto: Norbixin (E160b (ii))

Plant-Ex is **fully compliant** with EU Regulation 2020/771 offering a complete portfolio of Annatto based colours ready for the implemented change in January 2021.

Technical Support

Talk to our team about the options available and our recommendations which would be given according to the application. Accelerated stability testing can also be undertaken in our laboratories to assist our partners.
